PROFESSIONAL SUMMARY

Technical Lead at QuickGem Solutions with 7+ years building web platforms in Ruby on Rails, React, and the MERN stack. Principal Software Engineer at QuickGem since April 2024, and Technical Lead since October 2026. Before that, Technical Lead at Infinikorn, Team Lead at Healthwire, Senior Software Engineer at Ozacloud, and a Rails developer who grew into a senior engineer at Techcreatix.

EXPERIENCE

QuickGem Solutions

Islamabad, Pakistan

Technical Lead | October 2026 - Present

Principal Software Engineer | April 2024 - Present

- Developed scalable web applications using Ruby on Rails, React, and the MERN stack for clients' specific needs.
- Collaborated closely with clients to ensure timely delivery of high-quality solutions.
- Implemented responsive designs to enhance user experience and satisfaction.
- Maintained clear communication with clients to address issues promptly.

Infinikorn

Lahore, Pakistan

Technical Lead | June 2026 - October 2026

Ozacloud

London, United Kingdom

Senior Software Engineer | February 2024 - April 2024

- Designed and developed RESTful APIs for efficient data exchange.
- Built and maintained web applications using Ruby on Rails.
- Managed PostgreSQL databases, including schema design and query optimization.

Healthwire

Lahore, Pakistan

Team Lead | February 2023 - April 2024

Senior Software Engineer | November 2022 - February 2023

- Developed and enhanced applications from the ground up and contributed to existing projects.
- Led cross-functional teams on company initiatives.
- Implemented agile methodologies to keep delivery on time.
- Partnered with architects, designers, and developers on planning, development, testing, and maintenance.
- Shipped wallet functionality, transactions, and payment gateway integration.

Techcreatix

Lahore, Pakistan

Senior Software Engineer | December 2021 - November 2022

Ruby on Rails Developer | June 2019 - January 2022

- Led a team developing and maintaining web applications with Ruby on Rails and React.
- Managed and optimized PostgreSQL and SQL databases.
- Deployed applications on AWS and integrated SendGrid and Twilio.
- Built and maintained Rails applications and RESTful APIs.
- Integrated third-party services, including payments, mail, SMS, and notifications.
